Management's Discussion and Analysis of Financial Condition and Results of Operations

For the Three Month Period Ended March 31, 2017

The following is the Management's Discussion and Analysis ("MD&A") of the consolidated financial condition and results of operations of Cargojet Inc. ("Cargojet" or the "Company") for the three months ended March 31, 2017. The following also includes a discussion of and comparative operating results for the three months ended March 31, 2016.

Cargojet is publicly listed with shares and convertible debentures traded on the Toronto Stock Exchange ("TSX"). The Company is incorporated in Ontario and domiciled in Canada and the registered office is located at 350 Britannia Road East, Units 5 and 6, Mississauga, Ontario.

The effective date of the MD&A is May 15, 2017. The condensed consolidated interim financial statements have been prepared in accordance with generally accepted accounting principles in Canada ("GAAP"), as set out in the Chartered Professional Accountant of Canada Handbook- Accounting ("CPA Handbook"), which incorporates International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"), using International Accounting Standard 34, Interim Financial Reporting ("IAS 34"). This MD&A should be read in conjunction with the condensed consolidated interim financial statements of the Company for the three month periods ended March 31, 2017 and 2016 and with audited consolidated financial statements of the Company for the year ended December 31, 2016 and 2015.

All amounts in the MD&A are expressed in Canadian dollars unless otherwise noted.

Key Factors Affecting the Business

The results of operations, business prospects and financial condition of the Company are subject to a number of risks and uncertainties and are affected by a number of factors outside the control of the management of the Company (see the MD&A for the three month period and the year ended December 31, 2016 dated March 9, 2017 which was filed with SEDAR at www.sedar.com for a more complete discussion of the risks affecting the Company's business).

Caution Concerning Forward Looking Statements

This MD&A includes certain forward-looking statements that are based upon current expectations which involve risks and uncertainties associated with our business and the environment in which the business operates. Any statements contained herein that are not statements of historical facts may be deemed to be forward-looking statements including those identified by the expressions "anticipate", "believe", "plan", "estimate", "expect", "intend", "project" and similar expressions to the extent they relate to the Company or its management. The forward-looking statements are not historical facts, but reflect Cargojet's current expectations regarding future results or events. These forward-looking statements are subject to a number of risks and uncertainties that could cause actual results or events to differ materially from current expectations. Examples of the factors that can affect the results are government regulations, competition, seasonal fluctuations, international trade, weather patterns, retention of key personnel, labour relations, terrorist activity, general industry condition and economic sensitivity, the Company's ability to manage growth and profitability, fuel prices, other cost controls and foreign exchange fluctuations, and capability of maintaining its fleet. The risk and uncertainties are detailed in the "Risk Factors" section of the MD&A for the three month period and year ended December 31, 2016 dated March 9, 2017 which was filed with SEDAR at www.sedar.com and the Company is not aware of any significant changes to its risk factors from those disclosed at that time.

Management's Discussion and Analysis of Financial Condition and Results of Operations

For the Three Month Period Ended March 31, 2017

Forward looking statements are based on a number of material factors, expectations or assumptions of the Company which have been used to develop such statements and information but which may prove to be incorrect. Although the Company believes that the expectations reflected in such forward-looking statements or information are reasonable, undue reliance should not be placed on forward-looking statements because the Company can give no assurance that such expectations will prove to be correct. The statements are based on the following factors: the continued and timely development of infrastructure, continued availability of debt financing and cash flow, future commodity prices, currency, exchange and interest rates, regulatory framework regarding taxes and environmental matters in the jurisdictions in which the Company operates.

This document contains forward-looking statements that reflect management's current expectations related to matters such as future financial performance and liquidity and capital resources of the Company. Specific forward-looking statements in this document include, but are not limited to, statements with respect to:

- Fleet Overview Page 5.
- Off balance sheet arrangements Page 22.
- Outlook Page 24.

Management's Discussion and Analysis of Financial Condition and Results of Operations

For the Three Month Period Ended March 31, 2017

- EBITDA, Adjusted EBITDAR, Adjusted EBITDAR and Adjusted free cash flow are non-GAAP financial measures and are not earning
 measures recognized by IFRS. Please refer to page 13 of this MD&A for detailed discussion.
- Operating days refer to the Company's overnight air cargo network operations that run primarily on Monday to Thursday with a reduced network operating on Friday.
- 3. Average cargo revenue per operating day refers to total overnight, ACMI and charter revenues earned by the Company per operating day.
- 4. Prior periods volumes have been amended to conform to the current year's method of calculation of volume.

Corporate Overview

The Company is Canada's leading provider of time sensitive overnight air cargo services. Its main air cargo business is comprised of the following:

- Operating a domestic overnight air cargo co-load network between fourteen major Canadian cities;
- Providing dedicated aircraft to customers on an Aircraft, Crew, Maintenance and Insurance ("ACMI") basis, operating between points in Canada and the USA and between Canada and Colombia, Mexico and Peru;
- Operating scheduled international routes for multiple cargo customers between the USA and Bermuda and Canada and Germany; and
- Providing specialty charter service across North America, to the Caribbean and to Europe.

The Company operates its business across North America transporting time sensitive air cargo each business night utilizing its fleet of all-cargo aircraft. The Company's domestic overnight air cargo co-load network consolidates cargo received from customers and transports such cargo to the appropriate destination in a timely and safe manner. The Company continually monitors key performance indicators and uses this information to reduce costs and improve the efficiency of its services.

Fleet Overview

Note: See Caution Concerning Forward Looking Statements, page 2.

The table below sets forth the Company's operating fleet as at December 2015, 2016 and March 31, 2017 as well as the Company's planned operating fleet for the year ending December 31, 2017:

- 1. Four B767-300 aircraft are currently financed under a single Master Capital Lease Agreement ("MLA"). The fifth aircraft was acquired in March 2015 under a lease with a term of six years and a purchase option in favour of Cargojet to purchase the aircraft after three years at a pre-determined price. Cargojet expects to exercise the purchase option in March 2018 and has recorded the lease as a finance lease.
- 2. The three B767-300 aircraft in operation at March 31, 2017 are owned by Cargojet. In February 2017 Cargojet executed a definite agreement to purchase one B767-300 passenger aircraft as feed stock for future freighter conversions. This aircraft purchase is expected to close in Q2 2017. The aircraft has been scheduled for cargo conversion with an expected delivery date in early 2018. This aircraft is not included in the table above.
- 3. The B767-200 aircraft in operation at March 31, 2017 is under a lease that terminates in June 2018.
- 4. The two B757-200 aircraft in operation at March 31, 2017 are owned by Cargojet. In Q4 2016, Cargojet purchased an additional B757-200 aircraft that is currently undergoing conversion from a passenger aircraft to freighter aircraft and is expected to be operational in Q2 2017. In February 2017 Cargojet executed a letter of Intent to purchase two additional B757-200 passenger aircraft as feed stock for future freighter conversions and engine replacements. These aircraft have not been included in the table above and cargo conversions have not yet been scheduled.
- 5. In Q1 2017 the Company renegotiated the terms of the operating lease of one of the B757-200 aircraft and under the revised terms, the Company will buy back the aircraft at the end of the term of the lease in December 2017, accordingly the lease was classified as finance lease.
- 6. The leases of the two B757-200 aircraft expire at the end of 2020 and 2022 respectively.
- 7. Cargojet expects to retire the remaining B727-200 aircraft by the end of 2019 due to regulatory requirements that will prevent the aircraft from being flown in North America.
- 8. The Company has entered into a charter agreement with a third party to operate and manage two aircraft to provide individual and corporate charter services. Cargojet owns two other aircraft that are not in operations and are being considered for Cargo operations.

Management's Discussion and Analysis of Financial Condition and Results of Operations

For the Three Month Period Ended March 31, 2017

Recent Events

New Scheduled ACMI Contract

On April 23, 2017 Cargojet began operating a new scheduled ACMI route between Canada and the USA under a new 3-year contract. Under this contract, Cargojet operates 6 flights per week with a dedicated B767-300 aircraft. Annual revenues are expected to be approximately \$11 million.

Redemption of 5.5% debentures

On May 10, 2017 the Board of Directors of the Company authorized the redemption of all of the outstanding 5.5% convertible debentures on July 5, 2017, by issuing that number of voting shares of the Company to be obtained by dividing the outstanding principal amount of the 5.5% debentures by 95% of the volume weighted average trading price of the common voting shares on the TSX for the 20 consecutive trading days ending five trading days before the redemption date and to pay accrued and unpaid interest thereon up to but excluding the redemption date in cash to the holders of the 5.5% debentures.

Syndicated Operating Facility and Term Loan

On April 7, 2017, the Company amended its revolving operating credit facility (the "facility") availed through its subsidiary, Cargojet Airways Ltd., as borrower, with a syndicate of financial institutions (collectively, the "Lenders") by, amongst other things, increasing the maximum revolving credit available from \$175 million to \$200 million and established a non-revolving \$75 million delayed-draw term loan facility (the "DDTL Facility"). The maturity date of the facility is extended to expire on April 7, 2020 and the maturity date of the DDTL Facility is April 7, 2022. The Company can draw the amount under the DDTL Facility until April 06, 2018 known as the availability period. Any undrawn amount under the DDTL Facility at the end of this period will expire and will reduce the amount under the facility. The DDTL Facility can be used to purchase aircraft, refinancing aircraft loans, termination payment of aircraft capital leases and other capital expenditures. As of the date of the MD&A, the Company has drawn \$30 million under the DDTL facility. Any advance under the DDTL Facility is repayable by an equal monthly payment based on the amount of the advance and a straight line amortization from the borrowing date to the DDLT Facility maturity date.

Management's Discussion and Analysis of Financial Condition and Results of Operations

For the Three Month Period Ended March 31, 2017

New Head Office

In February 2017, the Company entered into a lease agreement with respect to a new 62,000 square feet head office and warehouse area. The lessor of the property is indirectly and beneficially owned by one of the Company's executive officers and directors. (the "interested Party")The transaction is in the normal course of business and will be measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties. The lease was negotiated on behalf of the Company by an independent director of the Company after an independent appraisal and review by outside counsel to ensure the lease was on markets terms and appraised by the directors other than the interested party. Entering into the lease is not subject to minority shareholder approval nor valuation requirements of Multilateral Instrument 61-101 - *Protection of Minority Security Holders in Special Transactions* as neither the fair market value of the subject matter of, nor the fair market value of the consideration for, the lease, insofar as it involves the Interested Party, does not exceed 25 per cent of the Company's current market capitalization.

The lease term is for a period of 15 years. The annual rental payments will be approximately \$1.0 million plus taxes, maintenance and insurance costs. The basic rent is subject to revision every five years at a predetermined rate per the terms of the lease.

Acquisition of Property, Plant and Equipment

During the three month period ended March 31, 2017, the Company renegotiated the terms of the operating lease of one of the B757-200 aircraft. Under the revised terms, the Company will buy back the aircraft at the end of the term of the lease in December 2017. Accordingly the lease was classified as finance lease. The Company also purchased ground service equipment to permit the Company to provide its own ground handling at certain locations instead of utilizing the services and equipment of third parties.

Aircraft Loans

The Company executed a loan agreement on March 31, 2015 with a US based lender for USD \$27.5 million to acquire a B767-300 aircraft. The estimated effective annual interest rate for this loan agreement was 8.52%. On February 1, 2017, the Company prepaid the entire outstanding amount in respect of this loan agreement including the prepayment fees using the Company's revolving operating credit facility. The prepayment resulted in a pre-tax loss of \$2.2 million including prepayment fees and unamortized costs, which were recorded as a loss on the extinguishment of debt. The settlement also resulted in the pre-tax exchange loss of \$1.3 million.

Total Return Swap

The Company had an obligation to pay share-based additional fees under Master Capital Lease Agreement and Aircraft Loan Facility Agreements with a Canadian equipment leasing and finance Company. In September 2015, the Company entered into a total return swap agreement with a financial institution to manage its exposure under these arrangements. Under the total return swap agreement, the Company pays interest to the financial institution based on Canadian LIBOR on the total value of the notional equity amount which is equal to the total cost of the underlying shares. At the settlement of the total return swap agreement, the Company will receive or remit the net difference between the total value

Management's Discussion and Analysis of Financial Condition and Results of Operations

For the Three Month Period Ended March 31, 2017

of the notional equity amount and the total proceeds of sales of the underlying shares. The Company did not designate the total return swap agreement as a cash flow hedge for accounting purposes.

The fair value of the underlying shares pending settlement as at March 31, 2017 were \$3.8 million in favour of the Company and are included under derivative financial instruments on the balance sheet. The net change in the fair value of the swap pending settlement as at March 31, 2017 was \$0.3 million and is included as other gains in the consolidated statements of earnings and comprehensive income. Total return swap of \$1.8 million was settled during the three month period ended March 31, 2017.

Foreign Exchange Forward Contracts

As at March 31, 2017, the Company had foreign exchange forward contracts outstanding to buy US \$20.7 million at a weighted average contracted rate of CAD \$1.3351 per US dollar. The estimated value of the foreign exchange forward contracts as at March 31, 2017 is a payable of \$0.2 million and is included under derivative financial instruments on the balance sheet. Foreign exchange contracts of \$30.7 million were settled during the three months ended March 31, 2017 resulting in a gain of \$1.0 million.

Revenues

The Company's revenues are primarily generated from its overnight air cargo service between fourteen major Canadian cities each business night. Most customers pre-purchase a guaranteed space and weight allocation on the Company's network and a corresponding guaranteed daily revenue amount is paid to the Company for this space and weight allocation. Remaining capacity is sold on an adhoc basis to contract and non-contract customers. Although a significant portion of overnight revenues are fixed due to guaranteed customer allocations, Cargojet's revenues will generally rise and fall with the overall level of customer volume typically expressed in pounds.

Revenues and shipping volumes from the Company's overnight air cargo service are seasonal. Customer demand is highest in the fourth quarter of each year due primarily to the increase in retail activity during the holiday season in December.

The Company's overnight air cargo service operates primarily on Monday to Thursday with a reduced network operating on Friday and on certain weekdays that are adjacent to certain statutory holidays. The Company defines the term "operating day" to refer to the days on which the full overnight air cargo network is in operations. Typically, each fiscal year will have between 197 and 199 operating days depending on the timing of certain statutory holidays and leap years. The variance in number of operating days between quarters and year over year will have an impact on comparative quarterly revenues.

The Company also generates revenue from a variety of other air cargo services:

• The Company provides domestic air cargo services for a number of international airlines between points in Canada that connect such airlines' gateways to Canada. This helps to support lower demand legs and provides a revenue opportunity with little or no incremental cost, as the flights are operating on regular schedules.

Management's Discussion and Analysis of Financial Condition and Results of Operations

For the Three Month Period Ended March 31, 2017

- The Company provides dedicated aircraft to customers on an adhoc and scheduled basis typically in the daytime and on weekends. Adhoc flights are sold under a one-time agreement while scheduled flights are sold under longer term agreements. The adhoc charter business targets livestock shipments, military equipment, emergency relief supplies and virtually any large shipment requiring immediate delivery across North America, to the Caribbean and to Europe. Scheduled charter business provides dedicated aircraft for recurring flights as required by the customer. Adhoc and scheduled flights are sold either on an "all in" basis or on an ACMI basis:
 - Under an all in adhoc or scheduled charter agreement, the customer will pay a single, all-inclusive fixed amount per flight. All costs of the flight including fuel, navigation fees and landing fees are borne by the Company and recognized in its financial statements as direct expenses.
 - O Under an ACMI adhoc or scheduled charter agreement, the customer is responsible for all commercial activities and the Company is paid a fixed amount to operate the flight priced as a rate per block hour (see definition of "block hours" in Expenses on page 10). Variable flight costs such as fuel, navigation fees and landing fees are borne by the customer.
- The Company operates an international route between Newark, New Jersey, USA and Hamilton, Bermuda. This provides a five-day per week air cargo service for multiple customers and is patterned after the domestic business that Cargojet has built in Canada. Customer contracts contain minimum daily revenue guarantees and the ability to pass through increases in fuel costs. Effective June 10, 2016 the Company commenced all cargo flights under contract between Canada and Colombia, Peru and Mexico with B767-300F aircraft. Starting November 19, 2016 the Company expanded this contract to include one flight per week between Canada and Frankfurt, Germany.

Expenses

Direct expenses consist of fixed and variable expenses that are largely driven by the size of the Company's aircraft fleet and the volume of flight activity required by the level of customer demand. Fixed costs include aircraft lease costs, building lease costs, salaries for full-time employees in maintenance, flight operations, and commercial operations, depreciation and amortization, and insurance. Variable costs that are directly related to the volume of flight activity include fuel expense, navigation fees, landing fees and variable aircraft lease reserves related to engines, auxiliary power units, and landing gear.

Flight activity is measured in "block time" and is expressed in "block hours". Block time represents the total duration of a flight from the time the aircraft releases its brakes when it initially moves from the airport parking area prior to flight, to the time the brakes are set when it arrives at the airport parking area after the completion of the flight.

Administrative expenses are primarily costs associated with executive and corporate management and the overhead of the Company's business that include functions such as load scheduling, flight operations coordination, aircraft maintenance planning and engineering, client relations, administration, accounting, human resources and information systems. Administrative expenses include management bonuses, legal, audit and other consulting fees, bank charges, and data and communication expenses.

EBITDA (A), Adjusted EBITDA (B), EBITDAR (C), Adjusted EBITDAR (D) and Adjusted Free Cash Flow (E)

Non-GAAP measures like EBITDA, Adjusted EBITDA, EBITDAR, Adjusted EBITDAR and Adjusted Free Cash Flow are not earning measures recognized by IFRS and do not have standardized meanings prescribed by IFRS. Therefore, EBITDA, Adjusted EBITDAR, EBITDAR, Adjusted EBITDAR and Adjusted Free Cash Flow may not be comparable to similar measures presented by other issuers.

These alternative measures provide a more consistent basis to compare the performance of the Company between the periods and improve comparability between other companies including other airlines. They provide additional information to users of the MD&A to enhance their understanding of the Company's financial performance. These measures are also used by the Company to guide its decisions on dividend policy, to set financial targets for its management incentive plans and to monitor the Company's compliance with its debt covenants. Investors are cautioned that EBITDA, Adjusted EBITDA, EBITDAR, Adjusted EBITDAR and Adjusted Free Cash Flow should not be construed as an alternative to net income determined in accordance with IFRS as indicators of the Company's performance or to cash flows from operating, investing and financing activities as measures of liquidity and cash flows. The calculations of EBITDA, Adjusted EBITDAR, Adjusted EBITDAR and Adjusted Free Cash Flow are shown on page 14 of the MD&A.

- (A) Please refer to End Note (A) included at the end of this MD&A.
- (B) Please refer to End Note (B) included at the end of this MD&A.
- (C) Please refer to End Note (C) included at the end of this MD&A.
- (D) Please refer to End Note (D) included at the end of this MD&A.
- $^{(E)}$ Please refer to End Note $^{(E)}$ included at the end of this MD&A.

Management's Discussion and Analysis of Financial Condition and Results of Operations

For the Three Month Period Ended March 31, 2017

<u>Calculation of EBITDA, Adjusted EBITDA, EBITDAR, Adjusted EBITDAR, Free Cash Flow and Adjusted Free Cash Flow</u>

(Canadian dollars in millions, except where indicated)

	Marc	h 31,
	2017	2016
	(unaudited	(unaudited)
	\$	\$
Calculation of EBITDA and Adjusted EBITDA		
Net earnings	2.6	4.4
Add:		
Interest	6.6	7.9
Provision of deferred taxes	1.2	1.5
Depreciation of property, plant and equipment	10.6	9.6
EBITDA Add:	21.0	23.4
Gain realized on forward exchange contracts settled	1.0	_
Gain on derecognition of provision for lease return conditions	(0.6)	_
Unrealized foreign exchange gain	(1.9)	
Loss on extinguishment of debt	2.2	(
Unrealized loss on forward foreign exchange contracts	0.7	5.4
Gain on cash settled share based payment arrangements and total return swap	(0.3)	(0.4
Employee pension	0.2	(0
Adjusted EBITDA	22.3	17.4
Calculation of EBITDAR and Adjusted EBITDAR		
EBITDA	21.0	23.4
Aircraft rent	4.1	7.3
EBITDAR	25.1	30.7
Add:		
Gain realized on forward exchange contracts settled	1.0	-
Gain on derecognition of provision for lease return conditions	(0.6)	-
Unrealized foreign exchange gain	(1.9)	(11.0
Loss on extinguishment of debt	2.2	-
Unrealized loss on forward foreign exchange contracts	0.7	5.4
Gain on cash settled share based payment arrangements and total return swap	(0.3)	(0.4
Employee pension	0.2	-
Adjusted EBITDAR	26.4	24.7
Calculation of Standardized Free Cash Flow and Adjusted Free Cash Flow		
NET CASH GENERATED FROM OPERATING ACTIVITIES	17.6	5.9
Add: Effects of exchange rate changes	-	3.0
Less: Maintenance capital expenditures ⁽¹⁾	(3.9)	(2.9
Standardized free cash flow	13.7	6.0
Changes in non-cash working capital items and deposits	(1.5)	2.3
Adjusted Free Cash flow 1. Refer to the definition of maintenance capital expenditure in End note (E)	12.2	8.3

^{1.} Refer to the definition of maintenance capital expenditure in End note (E).

Management's Discussion and Analysis of Financial Condition and Results of Operations

For the Three Month Period Ended March 31, 2017

Highlights for the Three Month Periods ended March 31, 2017 and 2016

- Total revenue for the three month period ended March 31, 2017 was \$87.1 million compared to \$76.9 million for the same period in 2016, representing an increase of \$10.2 million or 13.3%.
- Average cargo revenue excluding fuel surcharges and other cost pass-through revenues for the three month period ended March 31, 2017 was \$1.30 million per operating day compared to \$1.19 million for the same period in 2016, representing an increase of \$0.11 million or 9.2%.
- Adjusted EBITDA for the three month period ended March 31, 2017 was \$22.3 million compared to \$17.4 million for the same period in 2016, an increase of \$4.9 million or 28.2%.
- Adjusted EBITDAR for the three month period ended March 31, 2017 was \$26.4 million compared to \$24.7 million for the same period in 2016, an increase of \$1.7 million or 6.9%.
- Adjusted Free Cash Flow was an inflow of \$12.2 million for the three month period ended March 31, 2017 compared to an inflow of \$8.3 million for the same period in 2016, an increase of \$3.9 million or 47.0%.

Revenue

Total revenue for the three month period ended March 31, 2017 was \$87.1 million, compared to \$76.9 million for the same period in 2016, representing an increase of \$10.2 million or 13.3%. The increase in total revenue was due primarily to a \$3.6 million increase in core overnight revenues, \$2.0 million increase in ACMI revenues, a \$4.7 million increase in fuel surcharge and other cost pass-through revenues, and a \$0.2 million increase in other revenues. The increase was partially offset by a \$0.3 million decrease in all-in charter revenues.

Revenue related to the core overnight business excluding fuel surcharges and other cost pass-through revenues for the three month period ended March 31, 2017 was \$52.9 million compared to \$49.3 million for the same period in 2016, an increase of \$3.6 million or 7.3%. The increases were primarily due to increased volumes from existing customers and contractual annual price increases related to the Consumer Price Index. The increase in shipping volumes and prices during the period resulted in a 9.2% increase in average revenue per operating day.

ACMI scheduled and adhoc charter revenues for the three month period ended March 31, 2017 were \$8.8 million, compared to \$6.8 million for the same period in 2016, an increase of \$2.0 million or 29.4%. The increase of \$2.0 million was primarily due to a new scheduled daily route to the USA that started in February 2016, and additional flights to Colombia, Mexico and Peru that started in June 2016.

All-in scheduled and adhoc charter revenues for the three month period ended March 31, 2017 were \$3.2 million compared to \$3.5 million for the same period in 2016, a decrease of \$0.3 million or 8.6%. The decrease in all-in charter revenue was due primarily to lower adhoc charter activity.

Fuel surcharges and other cost pass-through revenues were \$21.4 million for the three month period ended March 31, 2017 compared to \$16.7 million for the same period in 2016. During the quarter, fuel surcharges increased due primarily to a 31.9% increase in fuel prices and higher customer volumes.

Management's Discussion and Analysis of Financial Condition and Results of Operations

For the Three Month Period Ended March 31, 2017

Other revenues consist primarily of maintenance revenue for aircraft line maintenance services provided to other airlines and passenger revenues from charter flights using its Challenger aircraft that started in 2016. Other revenues were \$0.8 million for the three month period ended March 31, 2016 compared to \$0.6 million for the same period in 2016, an increase of \$0.2 million or 33.3%.

Direct Expenses

Total direct expenses were \$66.2 million for the three month period ended March 31, 2017 compared to \$60.3 million for the same period in 2016, representing an increase of \$5.9 million or 9.8%. As a percentage of revenue, direct expenses decreased from 78.4% in 2016 to 76.0% for the same period in 2017. The overall increase in direct expenses was due primarily to a \$4.5 million increase in fuel costs, a \$0.2 million increase in depreciation, a \$0.7 million increase in heavy maintenance costs, a \$0.7 million increase in maintenance costs, a \$2.9 million increase in commercial and other costs partially offset by a \$3.1 million decrease in aircraft costs. For the three month period ended March 31, 2017 there were no one-time startup costs related to the Canada Post Group of Companies ("CPGOC") contract compared to \$1.1 million for the same period in 2016.

Fuel costs were \$17.2 million for the three month period ended March 31, 2017 compared to \$12.7 million for the same period in 2016. The \$4.5 million or 35.4% increase in fuel costs was due primarily to a 7.5% increase in block hours on the overnight and day network and a 31.9% increase in fuel prices. Any changes in fuel cost experienced by the Company due to changes in fuel prices are passed on to customers as an increase or decrease in their fuel surcharges.

Depreciation expense was \$7.8 million for the three month period ended March 31, 2017 compared to \$7.6 million for the same period in 2016. The \$0.2 million or 2.6% increase in depreciation expenses was due primarily to the addition of aircraft and other assets and reduction in the estimated useful life of B727-200 aircraft.

Aircraft costs were \$5.3 million for the three month period ended March 31, 2017 compared to \$8.4 million in 2016, representing a decrease of \$3.1 million or 36.9%. The decrease was due primarily to the lower fixed lease rental costs and variable lease costs during the three month period due to return of the two B767-200 aircraft at the expiry of their lease terms in 2016 and the conversion of one B757-200 aircraft operating lease to a finance lease. For the three month period ended March 31, 2017 there were no one-time startup costs related to the CPGOC contract compared to \$1.1 million for the same period in 2016. All operating aircraft leases are paid in US Dollars.

Heavy maintenance amortization costs were \$2.5 million for the three month period ended March 31, 2017 compared to \$1.8 million in 2016, representing an increase of \$0.7 million or 38.9%. The increase was due primarily to the timing of c-checks that started ahead of schedule. Heavy maintenance of aircraft occurs at regular and predetermined intervals and the costs related to these are deferred by the Company and amortized over a period of 24 months until the next scheduled heavy maintenance. The heavy maintenance component of the newly acquired aircraft is also deferred and amortized until the next scheduled event.

Maintenance costs were \$6.1 million for the three month period ended March 31, 2017 compared to \$5.4 million in 2016, representing an increase of \$0.7 million or 13.0%. The increase in costs was due primarily to higher block hours and additional hiring of maintenance personnel.

Management's Discussion and Analysis of Financial Condition and Results of Operations

For the Three Month Period Ended March 31, 2017

Total crew costs including salaries, training and positioning was \$5.8 million for the three month period ended March 31, 2017 and 2016.

Commercial and other direct operating costs were \$21.5 million for the three month period ended March 31, 2017 compared to \$18.6 million in 2016, representing an increase of \$2.9 million or 15.6% This increase was due primarily to a \$0.7 million of the increase in commercial salaries due to the hiring of additional personnel and annual wage increases, \$1.0 million higher landing, navigation, parking, deicing and ground service equipment costs due to increased activity in 2017, \$0.1 million higher warehouse rent costs, and a \$1.1 million increase in cartage and ground handling costs due to an increase in number of landings on the over night network.

Selling, General, Administrative & Marketing Expenses

Selling, general and administrative ("SG&A") expenses for the three month period ended March 31, 2017 were \$10.4 million compared to \$8.8 million for the same period in 2016, representing an increase of \$1.6 million or 18.2%. The increase was primarily due to a \$0.6 million increase in salaries and benefits due to increased head count, \$0.2 million increase in pension benefit costs, \$1.3 million increase in realized foreign exchange losses primarily due to prepayment of loan facility with a US based lender, \$0.6 million increase in other SG&A expenses, partially offset by \$0.2 million decrease in sales and marketing costs, \$0.6 million decrease in bonuses and incentives, \$0.2 million decrease in audit, legal and consulting expenses, \$0.1 million decrease in IT network and communications expenses.

Other Selling, General and Administrative Expenses

Other selling, general and administrative expenses for the three month period ended March 31, 2017 were \$6.7 million compared to \$1.9 million for the same period in 2016, representing an increase of \$4.8 million or 252.6%. The increase was due primarily to a \$6.1 million increase in other losses, partially offset by a \$1.3 million reduced finance costs.

Other losses (gains)

Other losses for the three month period ended March 31, 2017 were \$0.1 million compared to gain of \$6.0 million for the same period in 2016, representing an increase of \$6.1 million or 101.7%. The increase was due to a \$2.2 million loss on the extinguishment of debt due to the prepayment of aircraft loans, \$4.5 million decrease in other gains related primarily to foreign exchange offset partially by a gain on the derecognition of lease return costs of \$0.6 million related to the conversion of a B757-200 aircraft operating lease to a finance lease.

Finance costs

Finance costs for the three month period March 31, 2017 were \$6.6 million compared to \$7.9 million for the same period in 2016, representing a decrease of \$1.3 million or 16.5%. The decrease was due primarily to the repayment of aircraft loans.

Adjusted EBITDA

Adjusted EBITDA for the three month period ended March 31, 2017 was \$22.3 million compared to EBITDA of \$17.4 million for the same period in 2016. The increase in Adjusted EBITDA of \$4.9 million was due primarily to the following:

Management's Discussion and Analysis of Financial Condition and Results of Operations

For the Three Month Period Ended March 31, 2017

- Increase on core overnight network and ACMI revenues
- Increase in gross margin
- Elimination of start-up costs related to the CPGOC contract
- Conversion of a B757-200 aircraft operating lease to a finance lease

Adjusted EBITDAR

Adjusted EBITDAR for the three month period ended March 31, 2017 was \$26.4 million compared to \$24.7 million for the same period in 2016, representing an increase of \$1.7 million or 6.9%. The increase in Adjusted EBITDAR during the period was due primarily to changes in Adjusted EBITDA partially offset by lower aircraft rent addback due to the expiry of the aircraft leases later in 2016 and conversion of one aircraft to a finance lease from an operating lease.

Current Income Taxes

No provision for current income taxes were made for the three month period ended March 31, 2017 and same period in 2016.

Deferred Income Taxes

The deferred income taxes for the three month period ended March 31, 2017 was a provision of \$1.2 million compared to a provision of \$1.5 million for the same period in 2016. Deferred taxes result from the change in temporary differences between the financial reporting and tax bases of certain balance sheet items for the period.

Adjusted Free Cash Flow

Adjusted Free Cash Flow was an inflow of \$12.2 million for the three month period ended March 31, 2017, compared to an inflow of \$8.3 million for the same period in 2016, representing an increase of \$3.9 million. The increase in Adjusted Free Cash Flow was due primarily to the increase in Adjusted EBITDA, partially offset by changes in non-cash working capital items and higher maintenance capital expenditures.

Dividends

Total dividends declared for the three month period ended March 31, 2017 were \$2.0 million or \$0.1925 per share. In comparison, total dividends declared for the three month period ended March 31, 2016 were \$1.5 million or \$0.1491 per share.

December 18, 2015	January 05, 2016	-	-	0.1491	1,507,171
March 31, 2016	April 05, 2016	1,515,152	10,161,982	0.1491	-
		1,515,152	-	-	1,507,171

Liquidity and Capital Resources

Cash generated by operating activities after net changes in non-cash working capital balances for the three month period ended March 31, 2017 was \$17.6 million compared to cash generated by operating activities of \$5.9 million for the same period in 2016. The \$11.7 million increase in cash was due primarily to the increase in EBITDA partially offset by changes in non-cash working capital items and deposits.

Cash generated from financing activities during the three month period ended March 31, 2017 was \$4.1 million (March 31, 2016 - Cash generated of \$27.4 million) and was comprised of repayment of borrowings of \$35.8 million (March 31, 2016- \$3.4 million), repayment of obligations under finance lease of \$5.2 million (March 31, 2016 - \$5.6 million), dividends paid to shareholders of \$1.9 million (March 31, 2016 - \$1.5 million), and proceeds from borrowings during the three month period ended on March 31, 2017 \$47.0 (March 31, 2016- \$37.9 million).

Cash used in investing activities during the three month period ended March 31, 2017 was \$23.4 million (March 31, 2016 - \$38.5 million) and was primarily comprised of property, plant and equipment additions.

Capital Expenditures

The property, plant and equipment additions of \$23.4 million in the current period (March 31, 2016 - \$38.7 million) were primarily comprised of additions to aircraft and ground services equipments.

Financial Condition

The following is a comparison of the financial position of the Company as at March 31, 2017 to the financial position of the Company as at December 31, 2016.

Accounts Receivable

Accounts receivable as at March 31, 2017 amounted to \$24.1 million compared to \$25.7 million as at December 31, 2016. The decrease of \$1.6 million was due to the timing of cash collections from the customers. The quality of the Company's net receivable balances and its current collections, in management's opinion, remain excellent.

Management's Discussion and Analysis of Financial Condition and Results of Operations

For the Three Month Period Ended March 31, 2017

Property, Plant and Equipment

As at March 31, 2017, property, plant and equipment were \$402.1 million compared to \$371.1 million as at December 31, 2016. The \$31.0 million net increase in property, plant and equipment was primarily due to additions of \$41.6 million partially offset by amortization of \$10.6 million.

Trade and Other Payables

Trade and other payables as at March 31, 2017 were \$27.8 million compared to \$30.4 million as at December 31, 2016. The decrease of \$2.6 million was due primarily to the timing of supplier payments.

Finance Leases

The finance leases are in respect of the lease of five B767-300 and one B757-200 aircraft. Total finance leases including the current portion were \$143.3 million as at March 31, 2017 compared to 130.3 million as at December 31, 2016. The change was due to the conversion of a B757-200 aircraft operating lease to a finance lease, partially offset by scheduled monthly repayments made in the current period. The leases of one B767-300 and one B757-200 aircraft expire within the next twelve months of the balance sheet date these are classified under the current portion.

Provisions

Provisions as at March 31, 2017 were \$1.8 million compared to \$2.4 million at December 31, 2016 and comprised of maintenance liabilities for leased aircraft estimated to be incurred at the end of their lease terms. The change in provision was due to derecognition of provision due to conversion of one B757-200 aircraft to finance lease from an operating lease.

Management's Discussion and Analysis of Financial Condition and Results of Operations

For the Three Month Period Ended March 31, 2017

Summary of Contractual Obligations

	Payments due by Year					
As at March 31, 2017	Total	2017	2018	2019	2020	Thereafter
(Canadian dollars in millions)	\$	\$	\$	\$	\$	\$
Finance leases	143.3	27.5	45.3	11.6	9.7	49.2
Provisions	1.8	0.1	-	-	-	1.7
Borrowings	47.2	-	-	-	47.2	-
Convertible Debentures	182.0	-	-	68.8	-	113.2
Operating leases	45.4	8.4	9.1	7.1	5.4	15.4
	419.7	36.0	54.4	87.5	62.3	179.5

Off-Balance Sheet Arrangements

The Company's primary off-balance sheet arrangements are as follows:

- (a) The Company has provided indemnities under lease agreements for the use of various operating facilities and leased aircraft. Under the terms of these agreements, the Company agrees to indemnify the lessors of aircraft and facilities for various items including, but not limited to, all liabilities, losses, suits and damages arising during, on or after the term of the agreement. The maximum amount of any potential future payment cannot be reasonably estimated.
- (b) Indemnities have been provided to all directors and officers of the Company for various items including, but not limited to, all costs to settle suits or actions due to association with the Company, subject to certain restrictions. The Company has purchased directors' and officers' liability insurance to mitigate the cost of any potential future suits or actions. The term of the indemnification is not explicitly defined, but is limited to the period over which the indemnified party served as a director or officer of the Company. The maximum amount of any potential future payment cannot be reasonably estimated.
- (c) In the normal course of business, the Company has entered into agreements that include indemnities in favour of third parties, such as purchase and sale agreements, confidentiality agreements, engagement letters with advisors and consultants, outsourcing agreements, leasing contracts, information technology agreements and service agreements. These indemnification agreements may require the Company to compensate counterparties for losses incurred by the counterparties as a result of breaches in representation and regulations or as a result of litigation claims or statutory sanctions that may be suffered by the counterparty as a consequence of the transaction. The terms of these indemnities are not explicitly defined and the maximum amount of any potential reimbursement cannot be reasonably estimated.

Note: See Caution Concerning Forward Looking Statements, page 2.

Management's Discussion and Analysis of Financial Condition and Results of Operations

For the Three Month Period Ended March 31, 2017

(d) The Company participates in six Fuel Facility Corporations ("FFC") along with other airlines that contract for fuel services at various major airports in Canada. Each FFC operates on a cost recovery basis. The purpose of the FFC is to own and finance the system that distributes fuel to the contracting airlines, including leasing the required land rights. The aggregate debt of these FFC and any liabilities of environmental remediation costs are not considered part of the Financial Statements of the Company and are not consolidated. The airlines that participate in FFC guarantee on a pro-rata basis of this debt based on system usage. There is no major change in the total assets and total debts of these FFC as disclosed in the MD&A for the year ended December 31, 2016. The Company's pro rata share of the FFC's assets and debt is approximately 8% before taking into consideration the value of assets that secure the obligations and cost sharing that would occur among other participating airlines. The Company views the potential for losses in respect of the FFC as remote.

The nature of these indemnification agreements prevents the Company from making a reasonable estimate of the maximum exposure due to the difficulties in assessing the amount of liability which stems from the unpredictability of future events and the unlimited coverage offered to counterparties.

Historically, the Company has not made any payments under such or similar indemnification agreements and therefore no amount has been accrued in the balance sheet with respect to these agreements.

Major Customers

During the three month period ended March 31, 2017, the Company had sales to three customers that represented 60.9% of the total revenues (March 31, 2016 – 60.7%). These sales are provided under service agreements that expire over various periods to April 2025.

Contingencies

The Company has provided irrevocable standby letters of credit totaling approximately \$12.8 million as at March 31, 2017. The other guarantees are provided to financial institutions as security for its corporate credit cards, and to a number of vendors as a security for the Company's ongoing leases and purchases.

Related Party Transactions

In February 2017, the Company entered into a lease agreement with respect to a new 62,000 square feet head office and warehouse area. The lessor of the property is indirectly beneficially owned by one of the Company's executive officers and directors. See Page 8 Recent Events for further details.

Risk Factors

Risks Related to the Business

A detailed description of risk factors associated with the Company's business is given in the "Risk Factors" section of the MD&A for the three month and year ended December 31, 2016 dated March 9, 2017 which was filed with SEDAR at www.sedar.com. The Company is not aware of any significant changes to its risk factors from those disclosed at that time.

Management's Discussion and Analysis of Financial Condition and Results of Operations

For the Three Month Period Ended March 31, 2017

Outlook

Note: See Caution Concerning Forward Looking Statements, page 2

During the quarter ended March 31, 2017, the Company experienced growth over all revenue streams by 13.3% compared to the same period in 2016. The Company anticipates that the revenues will continue to sustain growth due to the continued development and strengthening of its relationships with existing customers and establishing new relationship with national/international carriers to establish new ACMI routes to the USA and South America and adhoc charters. The Company continues to retain all of its major customers. Since 2014, the Company has been adding aircraft, staff and network capacity to accommodate the growing demand in its overnight core network. The Company continues to redesign its overnight network to optimize capacity to match customer demand and will continue to do so going forward. This improved the gross margin and EBITDA by optimizing costs of its current operation. The Company will continue to evaluate its investments in fixed assets to ensure high returns on its investments and are in balance with its outlook of global economic conditions.

The Company proactively manages its fleet capacity and maintains its strong on-time performance. Management expects to achieve organic growth within its existing customer base and to obtain new customers for both its domestic and international routes as the Company continues its efforts to build on its competitive market position.

The Company also continues to recover fuel price increases through fuel surcharges. Any fuel cost increases due to higher fuel prices are passed on to customers as an increase in fuel surcharge and billed to customers on a cost recovery basis only. Similarly, any cost savings due to lower fuel prices are passed on to customers as a decrease in fuel surcharge. Management is confident that the Company will continue to fully recover any future increases in fuel costs. The new CPGOC contract also has a variable price component that will allow Company to recover costs related to fuel prices increases.

Management's principal objective is to maximize free cash flow available for dividends by continuing to provide quality air cargo services, increasing the range of these services, focusing on improving efficiencies and cost controls, and growing the business organically and through strategic and accretive acquisitions. Management continuously reviews and evaluates all of the foregoing initiatives especially those that can improve cash flow.

Future strategic initiatives may be financed from working capital, cash flow from operations, borrowing or the issuance of securities. Any decisions regarding the above, including further increases or decreases in dividends, will be considered and determined as appropriate by the Board of Directors of the Company.

Management's Discussion and Analysis of Financial Condition and Results of Operations

For the Three Month Period Ended March 31, 2017

Critical accounting judgments and key sources of estimation uncertainty

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenue and expenses during the reporting period. By their nature, judgments and estimates may change in light of new facts and circumstances in the internal and external environment. The critical accounting judgment and estimations used in preparation of the Company's unaudited financial statements are described in the "Critical accounting judgments and key sources of estimation uncertainty" section of the MD&A for the three month period and year ended December 31, 2016 dated March 9, 2017 which was filed with SEDAR at www.sedar.com.

Outstanding Share Data

The Company's common voting shares are listed under the symbol "CJT", variable voting shares under the symbol "CJT.A" and convertible debentures are listed under the symbol "CJT.DB.A" and "CJT.DB.B" and "CJT.DB.C" on the Toronto Stock Exchange ("TSX"). The following table sets out the shares of the Company outstanding and securities convertible into shares of the Company as of March 31, 2017:

Capital	Authorized/ Principal	Outstanding number of shares	Number of Shares underlying Convertible securities
Common Voting Shares	Unlimited	10,516,666	-
Variable Voting Shares	Unlimited	228,064	-
Convertible Debentures - 5.5%	\$ 73,645,000	-	2,561,566
Convertible Debentures - 4.65%	\$ 125,000,000	-	2,131,287

Information Disclosure Controls and Procedures and Internal Controls over Financial Reporting

Disclosure controls and procedures within the Company are designed to provide reasonable assurance that appropriate and timely decisions are made regarding public disclosure. This is accomplished through the establishment of systems that identify and communicate relevant information to persons responsible for preparing public disclosure items, in accordance with the Disclosure Policy adopted jointly by the Directors of the Company.

Management's Discussion and Analysis of Financial Condition and Results of Operations

For the Three Month Period Ended March 31, 2017

Internal controls over financial reporting are designed to provide reasonable assurance regarding the reliability of the Company's financial reporting and its preparation of financial statements for external purposes in accordance with IFRS.

An evaluation of the effectiveness of the Company's disclosure controls and procedures and internal controls over financial reporting, as defined under the rules of the Canadian Securities Administrators, was conducted at December 31, 2016 by management. Based on this evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that the disclosure controls and procedures and internal controls over financial reporting of the Company are effective. This MD&A was reviewed by the Disclosure Officers of the Company (individuals authorized to communicate with the public about information concerning the Company), the Audit Committee and the Board of Directors of the Company, all of whom approved it prior to its publication.

Financial Reporting Update

Standards, amendments and interpretations issued and not yet adopted

Financial instruments: In July 2014, the IASB issued IFRS 9 (2014), Financial Instruments ("IFRS 9"), which replaces IAS 39, Financial Instruments: Recognition and Measurement ("IAS 39") in its entirety.

IFRS 9 uses a single approach to determine whether a financial asset or liability is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. For financial assets, the approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. For financial liabilities measured at fair value, fair value changes due to changes in an entity's credit risk are presented in other comprehensive income ("OCI") instead of net income unless this would create an accounting mismatch. The standard supersedes all previous versions of IFRS 9 and is effective for periods beginning on or after January, 1 2018. Early adoption is permitted. The Company is assessing the potential impact of this standard.

Revenue from Contracts with Customers: On May 28, 2014, the IASB and the FASB jointly issued *IFRS 15*, Revenue from Contracts with Customers ("IFRS 15"), a converged standard on the recognition of revenue from contracts with customers that will replace IAS 18 Revenue and related interpretations. The core principle of the new standard is for companies to recognize revenue to depict the transfer of goods or services to customers in amounts that reflect the consideration to which the company expects to be entitled in exchange for those goods or services. The new standard will also result in enhanced disclosures about revenue, provide guidance for transactions that were not previously addressed comprehensively and improve guidance for multiple-element arrangements. The IASB standard is available for early application with mandatory adoption required for fiscal years commencing on or after January 1, 2018. The Company is currently assessing the impact of this standard.

Management's Discussion and Analysis of Financial Condition and Results of Operations

For the Three Month Period Ended March 31, 2017

Leases: In January 2016, the IASB issued IFRS 16, Leases, which sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract, i.e., the customer ("lessee") and the supplier ("lessor"). IFRS 16 replaces the previous lease standard, IAS 17 Leases, and related interpretations. The most significant effect of the new requirements will be an increase in lease assets and financial liabilities as IFRS 16 eliminates the classification of leases as either operating leases or finance leases for a lessee. All leases are 'capitalized' by recognizing the present value of the lease payments and showing them either as lease assets (right-of-use assets) or together with property, plant and equipment. If lease payments are made over time, a company also recognizes a financial liability representing its obligation to make future lease payments. IFRS 16 is effective for annual periods beginning on or after January 1, 2019, with earlier adoption permitted. The Company is currently evaluating the impact of the adoption of this standard on its consolidated financial statements.

Income taxes: IAS 12, has been revised to incorporate amendments issued by the IASB in January 2016. The amendments clarify how to account for deferred tax assets related to debt instruments measured at fair value. The amendments are effective for annual periods beginning on or after January 1, 2017. Earlier application is permitted. The Company does not expect the adoption of this standard to have a significant impact on the Company's disclosures as it does not have any debt instruments that are measured at fair value.

IFRS 2, Share-based payments ("IFRS 2"), has been amended to address (i) certain issues related to the accounting for cash settled awards, and (ii) the accounting for equity settled awards that include a "net settlement" feature in respect of employee withholding taxes. IFRS 2 is effective for annual periods beginning on or after January 1, 2018. The Company is currently evaluating the impact of adopting this standard on its consolidated financial statements.

End Notes

(A) "EBITDA" is defined as earnings before interest, taxes, depreciation and amortization. EBITDA is calculated as net income or loss excluding the following: depreciation, and aircraft heavy maintenance amortization, interest on long-term debt, deferred income taxes and provision for current income taxes. EBITDA is a term used by the Company that does not have a standardized meaning prescribed by IFRS and is therefore unlikely to be comparable to similar measures used by other issuers. EBITDA is a measure of the Company's operating profitability and by definition, excludes certain items as detailed above. These items are viewed by management as non-cash (in the case of depreciation and amortization of aircraft heavy maintenance expenditures,), or non-operating (in the case of interest on long-term debt and provision for current income taxes). The underlying reasons for exclusion of each item are as follows:

Depreciation - as a non-cash item, depreciation has no impact on the determination of EBITDA.

Interest on long-term debt - interest on long-term debt is a function of the Company's treasury/financing activities and represents a different class of expense than those included in EBITDA.

Deferred income taxes - the calculation of deferred income taxes is a function of temporary differences between the financial reporting and the tax basis of balance sheet items for calculating tax expense and is separate from the daily operations of the Company.

Management's Discussion and Analysis of Financial Condition and Results of Operations

For the Three Month Period Ended March 31, 2017

Provision for current income taxes – the provision for current income taxes is a non-operating item and represents a different class of expense than those included in EBITDA.

Aircraft heavy maintenance amortization - aircraft heavy maintenance amortization represents a non-cash item and is excluded from EBITDA.

(B) "Adjusted EBITDA" is defined as earnings before interest, taxes, depreciation, amortization, and other adjustments. Adjusted EBITDA is calculated as net income or loss excluding the following: depreciation, aircraft heavy maintenance amortization, interest on long-term debt, deferred income taxes, provision for current income taxes, gain or loss on disposal of property, plant and equipment, amortization of maintenance deposits, impairment of property plant and equipment, unrealized foreign exchange gains or losses and employee pension. Adjusted EBITDA is the term used by the Company that does not have a standardized meaning prescribed by IFRS and is therefore unlikely to be comparable to similar measures used by other issuers. Adjusted EBITDA is measure of the Company's operating profitability and by definition, excludes certain items as detailed above. These items are viewed by management as non-cash (in the case of depreciation, and aircraft heavy maintenance amortization, gain or loss on disposal of property, plant and equipment, gain or loss on disposal of intangible assets, amortization of maintenance deposits, unrealized foreign exchange gains and losses and deferred income taxes), or non-operating (in the case of interest on long-term debt and provision for current income taxes). The underlying reasons for exclusion of each item are as follows:

Depreciation - as a non-cash item, depreciation has no impact on the determination of Adjusted EBITDA.

Interest on long-term debt - interest on long-term debt is a function of the Company's treasury/financing activities and represents a different class of expense than those included in Adjusted EBITDA.

Deferred income taxes - the calculation of deferred income taxes is a function of temporary differences between the financial reporting and the tax basis of balance sheet items for calculating tax expense and is separate from the daily operations of the Company.

Provision for current income taxes – the provision for current income taxes is a non-operating item and represents a different class of expense than those included in Adjusted EBITDA.

Gain or loss on disposal of property, plant and equipment - the gain or loss arising from the disposal of property, plant and equipment is a non-cash item and has no impact on the determination of Adjusted EBITDA.

Unrealized foreign exchange loss (gain) - the unrealized gain or loss arising from the valuation of the foreign exchange balances at the period end is a non-cash item and has no impact on the determination of Adjusted EBITDA.

Aircraft heavy maintenance amortization - aircraft heavy maintenance amortization represents a non-cash item and is excluded from Adjusted EBITDA.

Management's Discussion and Analysis of Financial Condition and Results of Operations

For the Three Month Period Ended March 31, 2017

Gain or loss on forward foreign exchange contracts- the gain or loss arising from the forward foreign exchange contracts is a non-cash item and has no impact on the determination of Adjusted EBITDA. Any cash surrendered value on settlement of forward contact is added back to EBITDA.

Gain or loss on fair value of cash settled share based payment arrangement - the gain or loss arising from the fair value of cash settled share based payment arrangement is a non-cash item and has no impact on the determination of Adjusted EBITDA.

Gain or loss on fair value of total return swap - the gain or loss arising from the fair value of cash settled share based payment arrangement is a non-cash item and has no impact on the determination of Adjusted EBITDA.

Loss on settlement of cash settled share based payment arrangement - the loss arising from the settlement of cash settled share based payment arrangement is a function of the Company's treasury/financing activities and represents a different class of expense than those included in Adjusted EBITDA.

Gain on settlement of total return swap - the gain arising from the settlement of total return swap is a function of the Company's treasury/financing activities and represents a different class of expense than those included in Adjusted EBITDA.

Loss on extinguishment of debts –The loss on extinguishment of a long term debt is a function of the company's treasury/financing activities and represents a different loss of expense than those included in Adjusted EBITDTA.

Employee Pension – the provision for employee pension is a non-cash item and represents a different class of expense than those included in EBITDA.

- "EBITDAR" is defined as earnings before interest, taxes, depreciation amortization and aircraft rent. EBITDAR is calculated as EBITDA excluding aircraft rents. EBITDAR is a measure commonly used in the airline industry to evaluate results by excluding differences in the method by which an airline finances its aircraft.
- "Adjusted EBITDAR" is defined as earnings before interest, taxes, depreciation amortization, other adjustments and aircraft rent. Adjusted EBITDAR is calculated as Adjusted EBITDA excluding aircraft rents. Adjusted EBITDAR is a measure commonly used in the airline industry to evaluate results by excluding differences in the method by which an airline finances its aircraft.

Management's Discussion and Analysis of Financial Condition and Results of Operations

For the Three Month Period Ended March 31, 2017

"Adjusted Free Cash Flow" is a term, which does not have a standardized meaning prescribed by IFRS and is therefore unlikely to be comparable to similar measures used by other companies. The objective of presenting this non-IFRS measure is to calculate the amount, which is available for dividend distributions to shareholders. Adjusted Free Cash Flow is not necessarily indicative of cash available to fund cash needs and should not be considered an alternative to cash flow as a measure of liquidity. All references in the Management's Discussion and Analysis to "Adjusted Free Cash Flow" have the meaning set out in this note.

In November 2010, the Canadian Institute of Chartered Accountants ("CICA") issued a consultation guidance titled *Reporting Supplementary Financial Measures, General Principles* ("The Guidance"). The Guidance approved the continuation of previously published guidance on EBITDA and free cash flow as they continue to be relevant in the post IFRS environment.

Standardized Free Cash Flow is defined as "Cash flows from operating activities as reported in the IFRS financial statements, including operating cash flows provided from or used in discontinued operations; total maintenance capital expenditures minus proceeds from the disposition of capital assets other than those of discontinued operations, as reported in the IFRS financial statements; and dividends, when stipulated, unless deducted in arriving at cash flows from operating activities."

The Company has adopted a measurement called Adjusted Free Cash Flow to supplement net earnings as a measure of operating performance. Adjusted Free Cash Flow is defined by the Company as Standardized Free Cash Flow as defined by the CICA, less operating cash flows provided from or used in discontinued operations, changes in working capital, plus the provision for current income taxes.

The underlying reasons for the inclusion and exclusion of each item are as follows:

Changes in working capital - Changes in non-cash working capital items and deposits represent timing differences in the Company's working capital from year to year. These items are expected to be recoverable or payable shortly from the balance sheet date. Since it only represents short-term timing differences, it should be excluded from standardized free cash flow to determine a more representative measure of cash that is available for dividend distributions.

Provision for current income taxes – The expected cash outflows from the provision of current income tax is deducted to determine cash that is available for dividend distributions as it has priority over dividend distribution.

Maintenance capital expenditures - These are defined as any fixed assets acquired during a reporting period to maintain the Company's aircraft fleet and other assets at the level required to continue operating the existing business. They also include any capital expenditure required to extend the operational life of the fleet including heavy maintenance. Maintenance capital expenditures exclude any capital expenditures that result in new and additional capacity required to grow operational revenue and cash flows.
